

TCfeline[®] PLUS chicken liver

Raw Diet Premix for a homemade cat food

The **TCfeline** Raw Diet Premix formula is a source of essential, natural, and bioavailable nutrients to complete fresh, raw, boneless meat as a cat food.

The homemade cat food made with **TCfeline** by following the preparation instructions mimics the nutritional composition of a mouse and is recommended to be fed to cats of all ages as a staple diet.

Ingredients:

Gelatin (porcine), MCHA whole bone extract (bovine), dried chicken liver, whey protein isolate, taurine, dried krill powder, calcium carbonate, magnesium gluconate, Tocopheryl Acid Succinate (natural source Vitamin E), Vitamin A Palmitate, Vitamin D3.

Each 1.4 oz. by weight (approx. 1/4 cup volume) of the base premix contains:

Guaranteed Analysis:

Crude protein (min)	19.84 %
Crude fat (min)	0.96 %
Crude fiber (max)	0%
Moisture (max)	2.32 %
Total Minerals	12.8 %
Calcium	4840 mg
Phosphorus	1876 mg
Magnesium	216 mg
Sodium	160 mg
Potassium	52 mg
Taurine	2880 mg

For freshness, re-seal pouch and store in a dry, cool place. Keep in the freezer for best preservation.

Preparation instructions for one "batch":

One "batch" yields
9 x 1/2 cup (4.5 oz.)
cat food.

1. Weigh 1.4 oz. (1/4 cup)
TCfeline premix powder.

2. Add 4-8 fl. oz.
(1/2 - 1 cup) cold water*.
Whisk thoroughly.
Add 2 raw egg yolks
(optional). Whisk again.

3. Add 2 lbs. raw meat
without bone.
Combine.

4. Divide into servings.
Feed on average 1/4 cup
(2.2 oz.) twice daily to an
adult cat. Freeze food for
storage and thaw
before feeding.

*Water is added for texture. Adjust amount as you see fit. Add less when using chunk meat; add more when using ground meat.

Product is packaged by weight. Please weigh individual portions for best results. Instructions are provided as units of mass in ounces (oz.) unless otherwise noted as volume in cups or fluid ounces (fl.oz.)
